Dear Sir:

In response to the Office Action dated July 30, 2002 (Paper No. 30), please amend the above-identified U.S. patent application as follows:

In the Claims

Please amend the claims as follows (A marked up version of the amended claims is attached):

- DI
1. (Amended) An in-plane switching mode liquid crystal display device comprising:
- first and second substrates;
- a plurality of gate and data bus lines defining pixel regions and arranged on the first substrate;
- a common line in the pixel region, the common line and the data bus lines having a crossing relationship;
- E, a pair of first and second electrodes parallel to each other applying plane electric fields in the pixel regions; and
